Encroachment Permit Application Package

(Ordinance No. 1370, adopted August 12, 2003 and effective September 11, 2003)

Following items are attached for your use in obtaining an Encroachment Permit from this Department:

1. Checklist and Application for Encroachment Permit. (Required for all permits)
2. Encroachment Permit Fee Schedule
3. Hold Harmless/Indemnity Statement (required on case by case basis). Intended for projects, which may subject the public to potential liability or harm.
4. Certificate of Liability Insurance Sample (required on case by case basis as mentioned in item 4 above). County, its employees and agents in conducting of Encroachment Permit field inspection and review duties shall be listed as additional insured on certificate. Dollar amount of general liability shall be provided as recommended by the County Road Commissioner/Director of Public Works in coordination with the County Risk Manager.
5. Encroachment Permit informative brochure.

Following is a step-by-step summary of the Encroachment Permit Process:

1. Applicant submits a complete Encroachment Permit Checklist and Application with required Fee Deposit.
2. Public Works staff reviews information provided and proceeds as follows:
 - a. Review application and additional information for completeness, making recommendations/changes to meet this Department's requirements.
 - b. Check for any Conditions of Approvals or other requirements associated with the site, including, but not limited to; Conditional Use Permits, Parcel Maps, Zone Changes or Building Permits, etc.
 - c. Ensure Conditions of Approvals or other requirements such as Right-of-Way dedications, Grading and Drainage Plans/Studies or other Road Improvement Plans that have been approved.
 - d. Determine the amount of permit fees and request fees from applicant. The applicant will be required to submit quantities and "take offs" along with drawing to expedite the process. This information provides data for determination of the required fees.
 - e. When item "C" and "D" above have been addressed, staff writes up permit and contacts applicant to provide Hold Harmless Agreement and Insurance Certificates (if required).
 - f. After the above items have been addressed and are completed, the Department sends the applicant the Encroachment Permit with attached conditions/stipulations. As Built Plans will be required in most cases.
3. After construction, and if the permit was made out of the contractor (on a larger project), then the owner must obtain an Operate and Maintain Permit. This is a condition of the Construction Encroachment Permit. The fee is the "Basic Permit Fee", which is \$85.00 at the present time unless the fee schedule is updated.
4. Encroachment Permits are typically issued for a 6-month period. Time extensions may be granted as necessary for the current extension fee in effect.

Contact information as to status of Encroachment Permits can be directed to the Construction Engineer Coordinator of the Public Works Department at (760) 482-4462.

The estimate shall be attached to the Encroachment Permit Application. Public Works staff shall review the estimate and compare as necessary to the approved plans. If there is any difference in interpretation from staff's calculation and the estimate resulting in staff's determination that the quantity is greater than shown in the estimate, the engineer will be contacted to provide more detail to staff. Additional fees include: Inspection Fee, Plan Check Fee which is separate from the plan check fees by the Engineering division and other fees as may be required in the Encroachment Permit Fees adopted by the County Board of Supervisors, Ordinance No. 1370. A copy is included in the permit application. One of the following must be checked:

Encroachment Permit Deposit for Processing \$85 (check if attached)
 (check if provided with Improvement
and Site Development Plan submittal)

During Processing and prior issuance of permit, applicant shall be notified of additional required fees to be paid.

PERMIT PROCESSING TIMES

Processing time varies with complexity of project and whether approvals of engineering plans are required. If the project is reviewed through the engineering division the applicant can elect to have the encroachment permit processed concurrently with the plans. If this is done the Department can have the permit ready for issuance within seven (7) working days from the date the plans are approved for construction provided all necessary instruments of Liability/Surety and Traffic Control have been submitted and approved. Otherwise permits are normally processed AFTER plan approval. This necessitates permit application by applicant and several weeks of Department processing. If the encroachment permit does not require engineering plan approval, permit can be ready for issuance within seven (7) working days from the date of permit application acceptance provided all necessary instruments of Liability/Surety and Traffic Control have been submitted and approved. Please be advised that acceptance is determined after reviewing the application and that the application may be returned unaccepted if incomplete.

I, the undersigned Applicant, hereby apply for permission to excavate, construct and/or otherwise encroach on County right of way. I also agree to do the work in accordance with your terms, conditions, restrictions, rules, and regulations and subject to your inspection and approval. I verify that all items necessary for this project and checked above are attached. I understand that if any of the above required items, are not provided the Department reserves the right to reject the submittal without performing any plan check or permit processing. Receipt of submittal package does not guarantee acceptance for plan checking. If submittal is deemed incomplete, notification to applicant and engineer within one working day by fax and telephone will be made indicating unchecked submittal is available for pick up. Alternately the submittal may be returned by regular mail.
